

To Whom It May Concern,

I am writing to recommend Saranne Aguirre, with whom I had the pleasure of working at The Family Place Utah for over a year. During her time as the Wellness Coordinator, Saranne consistently demonstrated an exceptional work ethic and a willingness to excel in various areas beyond her primary responsibilities including in graphic design.

In my role as a Graphic Designer, I often had a heavy workload. Saranne not only managed her wellness coordination duties but also took on design projects, creating excellent graphics and designs for the programs she implemented. Her attention to detail and composition always impressed me. She is naturally artistic both professionally and personally and is a dedicated learner.

Saranne is a wonderful colleague, especially in stressful situations. She proved to be a great support and an effective problem solver. Her flexibility and commitment to achieving the team's vision, both as a Wellness Coordinator and in designing, were invaluable to me and other team members. She earned a well-deserved award for her efforts. Every interaction I had with her was positive, and she consistently demonstrated her ability to be a great team player.

Since leaving The Family Place, I have continued to stay in contact with Saranne and have seen her grow as a Graphic Designer, taking on a new path in her career. Saranne would be an exceptional asset to any team, with her drive to improve her skills and enhance the work environment around her.

Please feel free to contact me if you have any questions.

Best wishes,

Natalie Humpherys
